## **Client Comments**

---

*Creative Street brought a can-do, detail-oriented attitude to this project.*

*You are gifted at this kind of work, and it shows in the end product.*

*Never have I worked with a crew that was as well organized, communicative and personable as the Creative Street crew.*

*They have made us look like heroes in creating an image campaign almost overnight, a campaign that has sustained us throughout a long time period.*

*The educational videos you produced...are proving to be remarkable tools that are attracting the attention of our visitors, effectively delivering new information, and starting conversations while generating questions.*

*Creative Street partnered with us: our goals became their goals, our deadlines became their deadlines, and our priorities became their priorities.*

*Nothing stands out in my mind more than the quality of the personnel you have working for you.*

*From a budgetary perspective, Creative Street has met our needs, and perhaps exceeded them.*

*We were working on a tight deadline and there was never any hint of compromising quality. ...I couldn't have been happier.*

*I would not hesitate to refer your company to clients that may look for your expertise.*

*It was clear, throughout the process, that the staff at Creative Street were dedicated to meeting our needs.*
